

MUDANZAS

Classic Cocktail Bar

In the 21st century AD, the entire Born district is filled with bars catering to the throngs of tourists who flock to our city every year. The entire Born? No! A small bar, frequented by die-hard fans of authenticity, resists, as always, the law of uniformity.

These are drinks that inherit the tradition of classic cocktails, which, influenced by Grup Confiteria, we have transformed to offer a more personal experience.
